### **VOLUNTARY ANNOUNCEMENT – BUSINESS UPDATE**

This announcement is made by World-Link Logistics (Asia) Holding Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis to provide the shareholders of the Company and potential investors an update on the latest business development of the Group.

The cold chain business segment of the Group has recorded continuous growth. During the fourth quarter of 2018, the Group has further strengthened the business relationship with a customer, a key restaurant player with over 100 restaurants in Hong Kong, which the Group has provided logistics and cold chain solution services since the first half of 2018. Since the fourth quarter of 2018, the Group has expanded the coverage of the total cold chain solution services provided to the said customer to all restaurants under one of its major restaurant chain brands. Further, the customer also engaged the Group to commence provision of cold chain solution services to an additional major restaurant chain operated by the customer. This customer has contributed to the revenue in the cold chain business segment of the Group in 2018, which recorded significant growth in revenue in 2018 as compared to that in 2017. Notwithstanding the underperformance of the overall financial results of the Group during the fourth quarter in 2018, the directors of the Company expect the cold chain business segment of the Group will remain strong and continue to grow going forward.

Further, the Group will begin providing total supply chain solution to a global leader in pet health nutrition (“**the New Customer**”) in February 2019. The Group will provide total supply chain solution services to the New Customer including warehousing and transportation solution services. This is a milestone of the Group to expand its clientele to include a multinational pet food leader which is headquartered in Mclean, Virginia, the United States. In preparation for the commencement of the business relationship with the New Customer, the Company has completed the renovation of warehouses and the integration of the enterprise resource planning system with the New Customer.

By order of the Board  
**World-Link Logistics (Asia) Holding Limited**
